About 4,000,000 white fish eggs
were received by the Alpena hatch-
ery from the northern end of Lake
Michigan last Sunday, which in-
creased the store of fish eggs to 108
jars and making about 15,000,000
of the spawn in the hatchery.

Providing freight holds out the
City of Mackinac will make one
more trip to Alpena, and will clear
down on her last trip next Sunday.
There is a chance, providing weather
is favorable and a full load of

trip may be made.

The gymnasium room of the
Y. M. C. A. has again become an at-
tractive resort for members, as dur-
ing the past winters since that ex-

pounds. The catch of white fish
since that lift has been small.

Last Wednesday the steamer City
of Mackinac took on at this port,
102 tons of freight, including 40,000
pounds of paper pulp to Niles,
Mich., 172 bales of excelsior and 40,
000 pounds of paper pulp to Detroit,
five cars of fresh fish, 45 saddles of
venison and a quantity of miscel-
laneous freight.

The mission services at Trinity
church every day last week were
largely attended and great interest
was taken in them. Rev. John
Munday was assisted by Rev. R. E.
MacDuff, of Flint, and there is no
doubt that seed has been sown that
will bring abundant fruit. On
Sunday afternoon the service was
for men only.

Chairs had to be placed in the
aisles of Trinity church last Sunday
evening, in order to seat the
many persons who desired to be
present at the services. The
sermon was delivered by Rev. Mac-
Duff, and was one that created a
deep interest in his hearers. The
gentleman is a logical speaker, and
his work here the past week was
warmly commended by the many
who have attended the mission
services.

The first of the Y. M. C. A. star
course of entertainments was ren-
dered by the Mozart Symphony
Club, at the Baptist church, Sat-
urday evening, and the company gave
a second entertainment at the Opera
House, Monday evening. The
members of the company are good
musicians, and their selections were
rendered in a manner that occasioned
many recalls. The musical selec-
tions were most admirable for their
harmony, tone and expression. The
club commenced the Y. M. C. A.

star course with such excellence
that good work will be expected of
those who take part in the other
four entertainments of the course.

The residence of Stanislaus Pitre,
321 Cavanaugh street, was destroyed
by fire at 12 o'clock Monday night.
Most of the furniture was saved.
Mr. Pitre was out of town at the
time.

The fire is supposed to have
originated from the stove. There
is a telephone near the house, but
the alarm was given by a boy who
ran to the engine house, and thus
the fire got a big start before the
fire boys could reach the place.
Paterson & Small had an insurance

The Bankers Comedy Company
concluded their week's season at the
Opera House last Friday night,
having presented the following
plays: Saturday, "Dolly;" Monday,
"A Black Spider;" Tuesday, "Dad's
Girl;" Wednesday, "Kathleen Ma-
vourneen;" Thursday, "Esmeralda;"
Friday matinee, "Robinson Crusoe;"
Friday evening, "East Lynne."
The company is a good one and did
good work, notwithstanding their
patronage was not extensive, being
as good as the average companies
that visit this city.

The program for the musical and
literary entertainment, given by
Beulah lodge, D. of R., at I. O. O.
F. hall last Wednesday evening,
contained the following: Opening
address by the lodge; prayer; address
of welcome, by Mamie McKay; re-
marks, by Mayor A. Harshaw; re-
citation, by Miss Katie Fockler;
solo, by Mr. Bell; recitation, by
Miss Mable Hayes; recitation, by
Willie O'Brien; recitation, by Miss
Eva Brown; "How Ruby Played,"
by Miss Giroux; recitation, by Miss
Katie Beach; solo, by Miss Beach.

Albert Pack has a force of men
grading the land back of his mill
wharf, and the work is nearly com-
pleted. A railroad track will be
laid to extend to the D. B. C. & A.
road and thus connect with the
new Alpena & Northwestern. The
spur to the mill is to enable pine
logs for Mr. Pack to be brought on
cars from his extensive pines in
Presque Isle county to his mill, and
1,500,000 feet will be brought here
this winter. Next summer about
2,500,000 feet will come the same
way. The logs go direct from the
cars to the mill boom.

News was received in this city
last week, of the death of Mrs. H.
J. Eaton, at Virginia City, Minn.
Mrs. Eaton was formerly a resident
of Alpena, being one of the early
settlers. A year or more ago they
removed to Minnesota, where they
resided at the time of the death of
Mrs. Eaton. Mr. Eaton and
daughter arrived in the city Sat-
urday evening last, bringing the re-
mains of Mrs. Eaton, and the fune-
ral took place Sunday, from the
residence of Mrs. J. W. Creighton.
Mrs. Eaton was known to many
Alpena people, among whom were
very dear and warm friends, who
sympathize with the bereaved fam-
ily in their affliction.

Friday, November 24, is the end
of the deer hunting season for this
year, according to law. But if
hunters have no more regard for
law as to date than they have for the
law forbidding hunting deer with
dogs, they will pay no attention
whatever as to time. During the
past twenty days the woods in this
section of Michigan have been fairly
alive with hunters and dogs, and
the reports of their rifles in the
woods reminded old "vets" of the
skirmishes of thirty years
ago, while the baying of the hounds
has been sufficient to force the in-
habitants to believe that the dogs
of the universe were all turned loose
in their locality. It would seem to
indicate that the game law of Michi-
gan had become a dead letter. On-
ly a few years more, and at the
present rate, Michigan will be with-
out deer.

County commissioner of schools
J. A. Case, superintendent L. S.
Norton, Geo. A. Hunt, principal of
the high school, and about 50
school teachers went to Harrisville
last Friday, to attend the conven-
tion of teachers for the counties of
Alpena, Alcona, Presque Isle and
Iosco. Railroad tickets were fur-
nished at \$1.50 for the round trip
from this city to West Harrisville,
and the teachers were transferred
from the depot at West Harrisville
to Harrisville by stage. The teachers
remained until Saturday evening,
and returned home Saturday even-
ing. They report having a pleas-
ant trip. The program was a
lengthy one, and comprised parts by
Messrs. Norton, Case, Hunt, and the
Misses Smith, Collins and Ray-
burn, of this city. The rally pro-
gram contained 24 parts; the topics
of discussion numbered 15, and the
teachers' meeting 15.

A specially invited party made a
trip to Posen Monday, on the open-
ing of the new Alpena & North-
western railroad. The train con-
sisted of engine, one baggage car,
one flat car loaded with telephone
wire, and a caboose for the guests
and regular passengers, starting
from the depot near Dock street.
The Rogers City station of the
Alpena & Northwestern railroad
will be either at Hines' or Hoff-
man's, as the people of Rogers City
shall decide, but the railroad com-
pany would prefer the last named,
as there is a much better location
for a long siding. Rails are laid to
Hoffman's, which is about eight
miles beyond Posen, and as soon as
the ballasting is completed freight
and passengers will be taken there.
It is expected to run trains as far
as Hoffman the latter part of the
week. The distance from Hoff-
man to Rogers City is nine miles,
and a stage line will be run between
the two places.

Change of Time—D. B. C. & Alpena
Railroad.

The winter time table of the rail-
road from Detroit to this city took

effect last Sunday, and the first
train to leave on the new time was
Monday. The train leaves for De-
troit at 7:20 in the morning, stand-
ard time, and arrives in this city at
7:00 in the evening. It is a great
improvement as compared with last
winter's time of arrival of the ex-
press, which was about midnight,
and often later.

Injunction Dissolved.
The Supreme Court yesterday
dissolved the injunction issued by
Judge Kelley, preventing the Com-
mon Council from issuing street
orders for clearing streets or re-
pairing sidewalks. It is a victory
for the Common Council and the
people, and decides that the people
shall manage their own affairs
without court dictation.

Sale of Postage Stamps.

The following will show the num-
ber of postage stamps, postal cards,
stamped wrappers and envelopes
sold at the Alpena postoffice dur-
ing the month of October, 1893:
One cent, 2,180; two cent, 20,994;
three cent, 100; four cent, 97; five
cent, 317; six cent, 79; eight cent,
20; ten cent, 101; postage delivery,
12; newspaper, 102; special delivery,
118, making a total of 23,975, valued
at \$602.30.

During the same time there were
sold 1,531 postal cards, 3,230 stamp-
ed envelopes and 233 stamped news-
paper wrappers, the value of which
was \$86.80.

Spool Works.

The Spool Works are in full
operation, and 20 men are employ-
ed. In addition to spools the
company is manufacturing a hose
mender and a patent cork for bot-
tles and jugs. The prospects are
favorable for the cork being in
great demand, and it looks as if it
would replace the cork so long and
universally used. If it does, the
company is a bonanza, and will be
compelled to enlarge their works.
The patent cork is made from bass-
wood. A portion of the wood at
one end is sawed away, leaving a
thin shell on the outside of the
cork. The cut is circular in shape
and extends nearly the length of
the cork, and gives the cork a soft-
ness similar to real cork, making it
fit tightly to the bottle or jug.
They are made of various sizes, and
can be manufactured cheap. At
present it looks as if the invention
of the patent basswood cork would
make a revolution in the cork in-
dustry and supply a substitute for
the bark of the cork tree that has
long been looked for. We predict a
big demand for the new and cheap
cork. Wm. Paul is foreman of the
works.

Alpena & Northwestern Railroad.

The new railroad from this city
to Lake May, in Presque Isle coun-
ty, was opened for regular business
on Monday, and the intention is to
run a train every day to leave the city
of Alpena at 7:30 o'clock in the
morning, for Posen, and return in
the evening. Fare three cents per
mile.

The iron has not yet been laid to
Lake May, but it will not be long
before the trains are running there,
and then several trains will be em-
ployed in hauling logs from that
region to this city. There is an
immense amount of pine, cedar,
hemlock, hardwood, pulp wood and
excelsior timber to be transported
over the road, and its value as an
agent in making business for this
city will be considerable. It will
also benefit the back part of Pres-
que Isle county and open thou-
sands of acres of land for settle-
ment. The stage line from this
city to Posen will have to be dis-
continued, as travelers will prefer
a short ride on the cars to a long
and cold ride on the stage. The
trains leave from the depot of the
D. B. C. & A. railroad. We con-
sider the new road of more impor-
tance as a business feeder than the
old shore road, and that before
many years it will be extended to
the Straits of Mackinac.

The E. O. Avery Accident.

When we went to press last
Wednesday morning the news re-
ceived by telephone from Mr.
Avery's farm, was that E. O. Avery
had been dangerously wounded, and
that the rifle ball had passed through
one lung. It was also thought
that there was a little hope of his
recovery. The news caused general
and sincere sorrow among Alpena
people, and the friendly remarks
made by all classes speaks volumes
for Mr. Avery's popularity, and the
feeling entertained for him by his
fellow townsmen. It is not often
that a man who has been in busi-
ness as long as Mr. Avery has re-

tained the respect and good will of
so many people. They felt as if a
dear friend had left them, and the
remark was universal that Alpena
was likely to lose one of her best
sons, and one who could not be
well spared. The loss of Mr. Avery
would be a great blow to Alpena.
Before Wednesday evening better
news was received. The doctors
had made an examination, and the
wound was found to be a much less
serious one than at first reported,
and that neither the lung had been
pierced or a bone broken.

Last Wednesday morning we
were unable to give more than the
bare announcement of the accident.
On Tuesday of last week Mr. Avery
and his brother were returning to
his farm, having been deer hunting.
In the back part of the wagon were
some deer saddles, and these became
loose. George Avery got out of the
rig to make them fast, and as he
regained his seat a movement of
Mr. Avery caused a loaded Winchester
rifle to fall. In its descent the
hammer struck the wagon and it
discharged. The ball struck Mr.
Avery on the left side, just below
the seventh rib, passed up and came
out of his back just below the
shoulder, inflicting a terrible wound.
At that time they were six miles
from Mr. Avery's farm, in Montmorency
county, and he endured the
rough ride with great fortitude, and
was able to assist in taking off his
clothes. A telephone message was
then sent to this city—the news
arriving near evening, and Doctors
Howell, Eakin and Cameron im-
mediately drove out to Mr. Avery's
farm, arriving in a few hours.
Mrs. Avery and friends also went
out that night.

The latest news we have is to the
effect that Mr. Avery is doing re-
markably well and that his chances
of recovery are good. For several
days he was unable to retain food
on his stomach, but the latest re-
ports are that his improvement is
such that food is taken freely, and
hopes were felt that he would be
able in a few weeks to be removed
home.

His Montmorency farm is about
23 miles from this city, and Mr.
Avery and his two brothers had
gone there a short time previous to
the accident to enjoy a deer hunt
and have a little recreation.

We trust it will not be long be-
fore Mr. Avery is fully recovered
and able to take a hand in Alpena
affairs.

It is said that Mr. Avery escaped
death by being beat a little for-
ward at the time the rifle discharged,
and that if he had been sitting
straight, the ball would have passed
through the center of his body and
upwards, but being stooped caused
the ball to come out of his back,
after entering the side.

Deaths.

Nov. 15, Victor Lee, aged 6 months.

Nov. 17, Mrs. John Kennell, aged 56
years.

Nov. 17, Mrs. H. J. Eaton.
